

LayerFelt.

Colour palette

LayerFelt is available in a carefully selected palette of 30 UK stock colours, chosen to support fast lead times, trade supply and value-engineered acoustic specifications.

The palette has been selected and curated using market-specified colour knowledge, creating the perfect VE option palette for projects where clients need commercially attractive alternatives without compromising on finish, tone or design intent.

Our stock range includes a balanced mix of neutrals, warm tones, natural greens, deep accent colours and classic contract shades, making it easy to coordinate acoustic panels, sheets, baffles, ceiling features, wall panels and bespoke fabricated components.
